The Danish Economic Councils
The Danish Economic Councils consist of the Danish Economic Council and the Danish Environmental Economic Council.

The chairmen – the “Economic Wise Men”
The Danish Economic Councils are chaired by four independent economists. The Chairmanship is assisted by a secretariat consisting of approx. 35 employees.

The Danish Environmental Council
The Danish Environmental Economic Council was established on July 1st, 2007. The purpose of the council is to shed light on the interaction between the economy and the environment as well as the efficiency of the Danish environmental policy.

Aside from the chairmen, members of the Danish Environmental Economic Council include representatives of the labour market, the government, special interest groups and academic experts. There are 24 members of the Danish Environmental Council in total.

De Økonomiske Råd
Programme
The Environmental Economic Conference 2016
25 - 26 August
At Kurhotel Skodsborg

Keynote Speakers
Catherine L. Kling, USA
Hunt Allcott, USA

Evening Speaker
Peter Sandøe
Programme day 1

Dannersalonen

10:00 - 10:30 Registration and coffee

10:30 - 10:45 Welcome by Professor Michael Svarer, Chairman of the Danish Economic Councils

10:45 - 11:45 Keynote session by Professor Catherine L. Kling: Advances and Challenges in Valuing the Benefits from Water Quality Improvements

11:45 - 12:15 Professor Lars Gám Hansen (Member of the Chairmanship of the Danish Economic Councils) chairs the following discussion

12:15 - 13:30 Lunch in the restaurant

Louisesalen

1st session

Session leader: J.S. Schou

13:30 - 13:55 Synergies in land use measures to improve water quality and climate regulation (M. Konrad)

13:55 - 14:20 Substituting cereal-based pig feed with grass protein from green biorefinery: is it an economic and environmentally sustainable way for agriculture? (R. Cong)

14:20 - 14:45 Incentives for nitrogen effects trading: A Danish farmer study (L.B. Hansen)

14:45 - 15:10 Land consolidation used for facilitating multifunctional land allocation processes (J.S. Schou)

15:10 - 15:45 Coffee break

Dannersalonen

2nd session

Session leader: H. Jensen

13:30 - 13:55 Directed technical change, environmental sustainability and population growth (P.K. Kruse-Andersen)

13:55 - 14:20 Near shore wind turbines and their cost advantages: does their cost advantage outweigh the preferences for visual disamenities reduction they elicit? (P.A. Hevia-Koch)

14:20 - 14:45 Master thesis presentation: Economically efficient energy regulation scheme of firms in Denmark (V. Busk)

14:45 - 15:10 Omsøttling af opvarmning (H. Jensen)

15:10 - 15:45 Coffee break

Dannersalonen

3rd session

Session leader: O.G. Pedersen

13:55 - 14:20 Waste accounts - a module in the Green National Accounts for Denmark (P.R. Jensen)

14:20 - 14:45 A model for the global phosphorus demand (J. Helin)

14:45 - 15:10 Coffee break

Dannersalonen

4th session

Session leader: J. Ladenburg

14:45 - 15:10 Group specific final ecosystem services and tailored stated preference design (A. Kejser)

15:10 - 15:35 Waste accounts - modules in the Green National Accounts for Denmark (P.R. Jensen)

15:35 - 16:00 Testing spatial preferences response patterns in choice experiments: a comparison between Cheap Talk, Opt-Out Reminder and a control group (J. Ladenburg)

16:00 - 16:30 Coffee and departure

Louisesalen

3rd session

Session leader: M.S. Andersen

13:30 - 13:40 The value of statistical life in Denmark (M.H. Kjeldsen)

13:40 - 14:05 The futurity of climate mitigation: valuing statistical lives or life years? (M.S. Andersen)

14:05 - 14:30 Socio-economic analyses of regulating wood-burning stoves in Denmark (M.N. Källström)

14:30 - 14:45 Coffee break

Dannersalonen

4th session

Session leader: O.G. Pedersen

14:45 - 15:10 Green National Accounts for Denmark (O.G. Pedersen)

15:10 - 15:35 Waste accounts - a module in the Green National Accounts for Denmark (P.R. Jensen)

15:35 - 16:00 A model for the global phosphorus demand (J. Helin)

16:00 - 16:30 Coffee and departure

Programme day 2

Dannersalonen

10:30 - 11:30 Keynote session by Hunt Allcott: The Economics of Energy Efficiency

11:30 - 12:00 Professor Lars Gám Hansen (Member of the Chairmanship of the Danish Economic Councils) chairs the following discussion

12:00 - 13:15 Lunch in the restaurant

Louisesalen

3rd session

Session leader: E.S. Amundsen

13:30 - 13:55 Substituting cereal-based pig feed with grass protein from green biorefinery: is it an economic and environmentally sustainable way for agriculture? (R. Cong)

13:55 - 14:20 Waste accounts - a module in the Green National Accounts for Denmark (P.R. Jensen)

14:20 - 14:45 A model for the global phosphorus demand (J. Helin)

14:45 - 15:10 Coffee break

Dannersalonen

4th session

Session leader: J. Ladenburg

14:45 - 15:10 Group specific final ecosystem services and tailored stated preference design (A. Kejser)

15:10 - 15:35 Waste accounts - modules in the Green National Accounts for Denmark (P.R. Jensen)

15:35 - 16:00 Testing spatial preferences response patterns in choice experiments: a comparison between Cheap Talk, Opt-Out Reminder and a control group (J. Ladenburg)
